Prime mercantile paper, 3644 per cent. Sterling exchange was weak, with actual business in bankers' bills at \$4.88@4.8814 for demand and \$4.87@4.87% for sixty days; posted rates, \$4.87@4.881/2 and \$4.881/2@4.891/2; commercial bills, \$4.86.

Silver certificates, 67@67%c; bar silver, 66%c; Mexican dollars, 52%c. At London bar silver was down to 30 9-16d per ounce.

Speculation on the Stock Exchange yes terday opened strong and active, the trading continuing very heavy throughout the day and bringing the aggregate of the sales up to the unusually large total of 467,000 shares. During the first quarter of an hour the market advanced on good buying.

large proportion of which was for the eign account. The appreciation in values ranged up to 1 per cent., the latter in Baltimore & Ohio. At the higher figures realizations set in and there was selling for the short account in expectation of a general break, but the reaction effected did not exceed a fraction except in Sugar and Distilling, which lost 11's per cent. each. The depression lasted for about an hour, when the purchasing movement was renewed, the coal stocks taking the lead in the ensuing advance. The shorts in Reading and New Jersey

Central rushed to cover on report that interests closely to Jersey Central had cured a large interest in Reading, and that efforts would be made to reorganize on terms more favorable to the stockholders. It was rumored also that a settlement of the coal troubles was imminent, and this induced purchasers for both accounts in all the stocks of the coal group. The upward movement was very general, and was not checked until about delivery hour, when sales to take the profits accruing from the rise caused a reaction of a fraction generally; 1 per cent. in Sugar and 14 in Delaware & Lackawanna. In the later trading speculation again came into good tone with a partial rally, and the market closed strong and in most cases prices showed a gain. Prominent improvements are: Burlington, Northwestern, Baltimore & Ohio, Chicago & Eastern Illinois preferred, Dela-Ohio, 14; Louisville & Nashville, Leather preferred and Erie Telegraph, 114; St. Paul, 184; Tohacco and Union Pacific, 114; Starch, 15k; Northern Pacific preferred, 1%; Alton & Terre Haute, Flint & Pere Marquette preferred and Reading, 2; Illinois Central, New Jersey Central and Western Union. Metropolitan Traction, 4% per cent. The few declines established ranged between and % per cent., and were plainly on the

The bond trading, as on Wednesday, was very strong and animated. The sales were \$4,431.000, of which \$687,000 were Texas & Pacific seconds. The principal gains are: Erie second consol trust receipts, stamped, and Flint & Pere Marquette firsts. 3 per cent .: Union Pacific four-and-a-halfs trust receipts, 214; Omaha & St. Louis first trust receipts, 2%. Northern Pacific dividend scrip was traded in at 51, against 40 on May 3, Government bonds were strong. State bonds were dull.

Speaking of the slump in sterling exhange, the New York Evening Post last night said: On May 1 sight sterling bills sold at \$4.8916. To-day sales were made at M.8716, and indications point to still lower rates to-morrow. Since early yesterday there has been a decline of 1 per cent, per pound alone. The sharp break in sterling exchange in a little more than one week, according to the most prominent exchange dealers, is due wholly to pressure to sell hills against the purchases of securities for foreign account within the past three months. More than \$20,000,000 in bonds has been placed in large blocks in that period. and it has been current gossip that besides these purchases, every available steamer has taken \$1,000,000 to \$2,000,000 in scattered blocks of bonds within the last two months. So far this week the purchases of stock on arbitrage for foreign account amounts to over 100,000 shares, and there has also been heavy purchases of bonds by foreign houses. One of the most prominent deafers in foreign exchange to-day said: "With in the last three months Europe has taken

100,000,000 of our securities." The following table, prepared by James E. Berry, Room 16, Board of Trade, shows the range of quotations:

LOCAL GRAIN AND PRODUCE.

ances, \$1,580,171.

Trade Continues to Improve, with Prices Mostly Ruling Steady. On the wholesale streets and on Commission row a good trade is in progress. In groceries, dry goods, hardware and leather, strong prices rule. On Commission row receipts of fruits and vegetables of the season are increasing and a tendency to let down prices is noticeaute, although quotations do not yet show any material declines. Receipts of strawberries are large, and by next week Illinois will begin to ship stock in here. Bananas are in better supply. Irish potatoes are plentiful, and as new potatoes are beginning to come in freely, lower prices for old potatoes may be looked for. Eggs and butter both weak at quotations. Poultry firmer on a better demand. The seed market is more quiet, but dealers have had the best season in many years. Leather dealers report trade good and sales of pelting unusually large Hardware men are having a good trade: in fact, in most ames more business is in progress than at any time in many months. The local grain market is active. Wheat advanced 1/2c yesterday. Corn was un-changed. Oats advance, some grades 1/2c. Track bids ruled as follows: wagon wheat, 62c.

WHEAT UP 2 1-4 CENTS

CROP DAMAGE REPORTS GAVE BEARS A DECIDED FRIGHT.

At Every Sign of a Decline There Was a Rush to Buy, Which Fact Kept the Chicago Market Booming.

CHICAGO, May 9 .- Wheat went up with a rush to-day on crop-damage reports. July closed 24c higher. July corn gained %c and July oats 3c. Provisions also made modest gains.

Wheat opened strong at 63c bid for July,

compared with 621/2c at the close yesterday, and it continued firm and with an advancing tendency all forenoon, selling up to 631/2c and maintaining itself near the top most of the time. It reacted about 11 o'clock to 63%c, but that reaction was taken advantage of by the early buyers to take more, and it had another spurt to 63% before 12 o'clock. It was claimed that a considerable line of short wheat was covered for a heavy local bear speculator.

Numerous reports from various sections of

the winter wheat belt received here to-day would almost lead to the conclusion that a disaster to the crop was threatened. This, together with much smaller receipts, added to the strength with which the bulls held their grip on previous purchases, and the readiness with which they added to them. Minneapolis and Duluth recived 160 cars, compared with 233 a year ago, and the total of the primary market receipts was 162,600 bushels, against 183,000 bushels a year ago. Export clearances from the Atlantic seaboard in wheat and flour together amounted to 315,000 bushels. The export business was more completely barred by to-day's rise in price than it was before, although Liverpool kept under the parity of prices ruling

here, the reports from there indicating some apprehension regarding their ability to get all their wants supplied from elsewhere. The matters last referred to and the great uncertainty of how to-morrow's government report will be received by the crowd kept the market strong, and about 12:30 p. m. the price was 644c bid for July. Some cargoes of No. 2 red were sold here c. i. f., Buffalo, to Baltimore and New York handlers of cash grain. It was reported that forty boatloads of No. 2 spring had been sold in New York for export. Although the conti-nental closing cables came weak and lower, the market ruled strong to the close on the domestic situation. July closed at 64%c. The corn market was firm, but encoun-

tered much opposition from houses who handle the cash grain. The receipts were 109 cars this morning, in place of 85, as estimated, and for to-morrow 218 cars are estimated. Primary market receipts were 109,000 bushels, compared with 194,000 bushels a year ago. New York reported some inquiry from exporters and sales of eight or ten boatloads. The opening price for July was 51%c and 51%c simultaneously. The sell-ing by receiving houses referred to caused a reaction to 5012c, but the great strength displayed by wheat carried the market be-

yond the control of the sellers and caused a second advance to 52%c, with 51%@51%c the closing price. Business in oats was of only a fair vol-ume, and fluctuations were left to follow the other grains. June started at 29c, sold at 291/sc, declined to 281/20287/sc, and closed at 287/s/029c. July ranged from 287/sc to 287/sc, resting at 285/sc.

Provisions were firmer, but did not gain in activity, although making a slight improvement in price in sympathy with the advance in corn. Hog receipts were 23,000 head, and 7,000 is the extent of the estimated run for to-morrow. Compared with yesterday's close September pork is about 5c high-er and July unchanged. Lard is .07½c high-er for both July and September, and ribs are up .07½c for July and .05c for Septem-

Vessel room firm at 14c for wheat and corn and ic for oats to Buffalo. Estimates for Friday-Wheat, 25 cars; corn, 219 cars; oats, 180 cars. Hogs, 17,000 head. Leading futures ranged as follows:

CLEVELAND, May 9.-The Iron Trade Review this week will, say: Increased labor cost is the main factor in calculation as to the immediate future of the iron trade. Furnace men in the Mahoning and Shenango valleys, who produce the bulk of the Bessemer iron that goes upon the general market, have had a succession of strikes the past week. The New Castle trouble was settled by giving the men an increase. Other valley furnaces voluntarily granted 10 cents a day advance, which Mahoning valley furnace employes accepted. In the Shenango valley strikes were started for an addi tional advance of 10 cents. One furnace yielded, and the prospect is that by the time all are running again the labor cost iron will be from 15 cents higher than it was a week ago. The increased cost of making valley iron has made Bessemer firmer, and \$10.25 at furnace \$10.90 at Pittsburg has been refused. Little business has been done at any figure. Steel billets show little activity, but mills are firm in the main at \$15.50. The week just ending has done more than any other to convince the few remaining skeptics that the day of lowest prices is at an end. There is no evidence as yet that furnaces kept out of blast by the low prices are preparing to resume. The advance is not enough to be tempting. A wage struggle that is already entering into calculations for the third quarter of the year is that which will follow the Amalgamated Association's meeting in Cleveland. There are evidences that the campaign for the restoration of prosperity wages is to be very much over-
